BILLING UPDATE - Optimizing the Home Health Revenue Cycle

PRESENTED BY: BKD, LLP.

Optimizing the home health revenue cycle requires the ability to critically examine the full billing process, including those processes leading up to the point of billing and those that occur after claims submission. A successful initiative to enhance the revenue cycle provides substantial returns beyond improved cash flow and working capital. This workshop will provide attendees with insights on how to examine the revenue cycle to identify opportunities to enhance performance, as well as provide benchmarks by which to compare current revenue cycle performance.

WEDNESDAY, MARCH 24, 2010 8am-4pm

**Embassy Suites/OKC - 1815 S. Meridian - OKC, OK 73108
